

Nigerian construction company Julius Berger acquires 78 new MAN TGS trucks

Munich
08.08.2013

The first of the off-road trucks with various bodies have already been shipped and are on their way.

Julius Berger Nigeria PLC has ordered 78 new MAN TGS 33.360 WW as concrete mixers, rear tippers, water tankers and set-down skip loaders, amongst others. The trucks will be deployed on construction projects in Nigeria. The 33-tonne TGS WW with 360-hp engines are equipped with two driven rear axles and leaf suspension all round, suitable for use under tough off-road conditions.

Ensuring safe and user-friendly operation, all the vehicles have MAN Tip-Matic Offroad transmission and BrakeMatic braking systems.

Julius Berger has been active in Nigeria for nearly fifty years. The company's scope covers building projects above ground, as well as the build-up of infrastructure and industrial plants. Julius Berger Nigeria PLC is listed on the Lagos Stock Exchange and, with around 18,000 employees, is one of the biggest private employers of the country.

The MAN Group is one of Europe's leading industrial players in transport-related engineering, with annual revenues of some €15.8 billion in 2012. MAN is a supplier of trucks, buses, diesel engines, turbo machinery and special transmissions and has around 54,300 employees worldwide. MAN's business areas are all leaders in their markets.
