Mitsui Reaches 70-million BHP Milestone for MAN B&W Brand

Total accumulated production since 1928

The President of Mitsui Engineering & Shipbuilding Co., Ltd, Yasuhiko Katoh, has announced that the company has reached the 70-million-BHP mark in accumulated production of a single diesel brand, namely MAN B&W two-stroke engines.

The significant milestone was reached with the production of an MAN B&W 7S80MC-C7 engine, manufactured at Mitsui's Tamano Engine Works in southern Japan. The engine is bound for Namura Shipbuilding Co., Ltd. for installation aboard a 250,000-dwt coal carrier for Nippon Yusen Kabushiki Kaisha, the NYK Line, one of the largest shipping companies in the world.

Mitsui passed the 60-million-BHP mark in March 2008 and has reached the new milestone in a mere 27 months. The Japanese engine builder signed its original licence agreement with MAN Diesel & Turbo in 1926, with its very first MAN B&W engine rolling off the production line in 1928.

MAN Diesel & Turbo

MAN Diesel & Turbo SE, based in Augsburg, Germany, is the world's leading provider of large-bore diesel engines and turbomachinery for marine and stationary applications. It designs two-stroke and four-stroke engines that are manufactured both by the company and by its licensees. The engines have power outputs ranging from 47 kW to 87 MW. MAN Diesel & Turbo also designs and manufactures gas turbines of up to 50 MW, steam turbines of up to 150 MW and compressors with volume flows of up to 1.5 million m³/h and pressures of up to 1,000 bar. The product range is rounded off by turbochargers, CP propellers, gas engines, engines for locomotives and chemical reactors. MAN Diesel & Turbo's range of goods includes complete marine propulsion systems, turbomachinery units for the oil & gas as well as the process industries and turnkey power plants. Customers receive worldwide after-sales services marketed under the MAN PrimeServ brand. The company employs around 12,500 staff, primarily in Germany, Denmark, France, Switzerland, the Czech Republic, Italy, India and China; it has a presence in around 150 countries. MAN Diesel & Turbo is a company of the Power Engineering business area of MAN SE, which is listed on the DAX share index of the 30 leading companies in Germany.
