

## **MAN Diesel & Turbo maintains gas turbines on Brazilian offshore platforms**

Augsburg, 10/01/2012

### **Contract extension with Petroleo Brasileiro energy group**

MAN Diesel & Turbo SE, the leading international manufacturer of large-bore diesel engines and turbomachinery, has concluded a long-term service agreement with the Brazilian energy group Petroleo Brasileiro (Petrobras) for the maintenance, repair and operational support of 20 MAN THM gas turbine trains on four offshore platforms in the crude oil and natural gas exploration area off the north-east coast of Rio de Janeiro. The agreement spans five years and is the second extension of this service contract, which was originally signed in 2002. The value of the agreement is Euro 150 million.

The gas turbines drive ten gas compressors and ten generators on the Petrobras platforms Cherne 1 and 2, Garoupa and Pampo situated 150 kilometres off the Brazilian coast in the Campos Basin, where around 80 per cent of Brazil's crude oil and natural gas production are located. The service agreement includes technical support for the operation of systems, regular maintenance work, any repairs that are required as well as spare parts and their logistics. Besides the core components turbine, compressor and generator, the contract also covers all auxiliary equipment as well as the control system.

The service from MAN Diesel & Turbo meets the particular requirements of the oil and gas business: round-the-clock availability 365 days a year, rapid response times to maintain operations and compliance with exacting safety and environmental requirements.

“The further extension of the service agreement confirms our excellent collaboration with Petrobras and represents a key reference on the Brazilian oil and gas market,” says Dr. René Umlauf, CEO of MAN Diesel & Turbo. “We are absolutely delighted to be a highly trusted partner of many years’ standing to Petrobras.”

MAN Diesel & Turbo operates over 100 service stations worldwide under the MAN PrimeServ brand, including stations in Brazil's cities of Rio de Janeiro, Manaus, Macaé, Petrópolis and Salvador.

### **About MAN Diesel & Turbo**

MAN Diesel & Turbo SE, based in Augsburg, Germany, is the world's leading provider of large-bore diesel engines and turbomachinery for marine and stationary applications. It designs two-stroke and four-stroke engines that are manufactured both by the company and by its licensees. The engines have power outputs ranging from 450 kW to 87 MW. MAN Diesel & Turbo also designs and manufactures gas turbines of up to 50 MW, steam turbines of up to 150 MW and compressors with volume flows of up to 1.5 million m<sup>3</sup>/h and pressures of up to 1,000 bar. The product range is rounded off by turbochargers, CP propellers, gas engines and chemical reactors. MAN Diesel & Turbo's range of goods includes complete marine propulsion systems, turbomachinery units for the oil & gas as well as the process industries and turnkey power plants. Customers receive worldwide after-sales services marketed under the MAN PrimeServ brand. The company employs around 14,000 staff at more than 100 international sites, primarily in Germany, Denmark, France, Switzerland, the Czech Republic, India and China. MAN Diesel & Turbo is a company of the Power Engineering business area of MAN SE.
